

SOUTH AFRICAN JOURNAL OF ENOLOGY AND VITICULTURE

CONTENTS

	Page
Relative Leaf Expansion Rate as an Indicator of Compensatory Growth of Defoliated Vines (<i>Vitis vinifera</i> L. cv. Prokupac) <i>D. Cirkovic, S. Matijasevic, B. Cirkovic, Z. Bešlić</i>	96
Effects of Soil Ameliorants Produced from Recycled Glass on the Establishment of Table Grapes <i>P.A. Myburgh & C.L. Howell</i>	101
Orographic Effects on Berry Morphology and Chemical Composition of Carignan and Grenache Noir Grapes <i>A. Sánchez-Ortiz, J. Castro-Nadal, M. Lampreave, M. A. Mateos, J.M. Mateo-Sanz, V. Sok</i>	112
RESEARCH NOTE: The Olfactory Threshold of Rotundone in Brandy is Ten-fold Higher than in Wine and does not Increase with the Complexity of the Matrix <i>O. Geffroy, F. Aymard, C. Cuif, T. Baerenzung dit Baron, M. Denat, A. Jacques</i>	120
Effect of Irrigation with Treated Municipal Wastewater on <i>Vitis vinifera</i> L. cvs. Cabernet Sauvignon and Sauvignon blanc in Commercial Vineyards in the Coastal Region of South Africa - Vegetative Growth, Yield and Juice Characteristics <i>K. Hoogendijk, P.A. Myburgh, C.L. Howell, E.L. Lategan, J.E. Hoffman</i>	126
Detection and Quantification of Grapevine Bunch Rot Using Functional Data Analysis and Canonical Variate Analysis Biplots of Infrared Spectral Data <i>R.J. Cornelissen, N.J. Le Roux, S. Gardner-Lubbe, J.L. Alexandre Tudo, H.H. Nieuwoudt</i>	144
